

## Hello!

We haven't met you yet, but we already think of you as one of the strongest and most selfless people we know. Your brave decision inspires us and we admire your courage. This letter gives a glimpse of who we are in hopes that we will get to meet you!

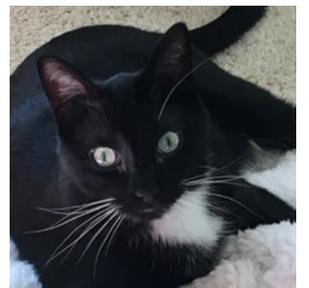

## Our Journey

We met in college on our study abroad trip in Ireland and since then have gone through the ups and downs of life, including graduating college, starting our careers, getting married in 2015, and struggling with infertility. We are so grateful for the opportunity to adopt and look forward to exciting times ahead!

## Who We Are

Family, friends, faith, and living a fun-filled life make up who we are. Many family members have adopted and are there to support us during this momentous time in life! Our home, in a northern suburb of the Twin Cities, is in a great school district and close to many lakes, parks, and trails. The only thing that's missing is children - ones that don't have fur!

Faith is an important cornerstone in our relationship. We look forward to raising our children within our Catholic beliefs. We enjoy being involved at church and volunteering as much as we can.

GUS

Our sweet fur baby.
