

# Jake & Cailin

Hello!

Thank you for making this courageous and selfless decision. We can't imagine what it's like for you. This letter will help you get to know our family and learn about the life we hope to share with your child. We are agreeable to an open adoption and are willing to work with you to make a plan you're comfortable with.

## Our Story

Together since 2011, we married in 2014. We live in the suburban Twin Cities. Having a family was always something we wanted, and adoption has always been part of that plan! After struggling with infertility, we decided to move forward with adoption – and we are so excited about it!

### Cailin about Jake

Jake is the smartest person I know! He works as an Attorney Editor in legal publishing. Patient, calm, kind, and loving, he is silly and enjoys making bad jokes/puns (he's got the dad jokes down already!) and creating goofy songs to sing to our pets. I know he will be an incredible dad!

### Jake about Cailin

Cailin is the most amazing and caring person I know. She is always wonderful, nurturing, and supportive. Her current job is training doctors to complete insurance reviews, but her favorite job was working at a preschool where she could be around children all the time. She is so excited to be a mother!

### Pets

We love animals! We have a corgi named Penny who loves everyone she meets. We also have two cats named Puck & Teddy. They fill our home with constant entertainment and excitement.

## Our Promise

We promise to raise your child with so much love, warmth, and care. We will always be supportive, encouraging, and offer a home filled with fun and silliness.

## Family

Our families are very close. We often have meals together and love spending quality time. We love to vacation and have fun new experiences together. They are so supportive and eager to help with our adoption journey!

## Interests

As avid Gopher hockey fans, we love going to games! We also enjoy plays and musicals. We both love reading, hosting game nights with our friends, and traveling to a new place at least once a year.

## Thank you

Thank you for taking the time to read about our family and getting to know us. We know this decision can't be easy and we so admire your strength. We promise to raise your child with all the love in our hearts and we would love to hear from you.
