

hello

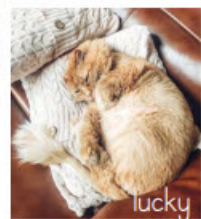

You have our sincerest respect and gratitude as you make this loving decision for your baby! You are selfless and courageous. We would be so humbled to be able to partner with you on your journey to pursue adoption and are comfortable with an open relationship! We will provide a loving, supportive, and happy home for your baby. After struggling with infertility and pregnancy losses, we are really excited to grow our family through adoption! We hope that our letter gives you an idea of who we are and who you are looking for. We are so grateful that you are taking the time to learn about us!

Our Story

We met in college at The University of Wisconsin, developed a great friendship, and went our separate ways after graduation. It is so fun telling our story and knowing that when the time was right we found each other again. We have been inseparable ever since and are best friends! Married for 3 years, we laugh a lot, are always up for an adventure, and we take care of each other. You will find us; traveling, boating, at concerts, dining out, Twins games, cooking, baking, Packer and Badger football games, fishing, skiing and spending time with our family and friends.
