

STEPHIE & AMMAR

HELLO!

It is hard to put into words how grateful we are for the generous and selfless decision you are making! We recognize this must not be an easy decision but thank you from the bottom of our hearts for loving your baby and making this difficult choice! You have our total respect and support throughout this process, and if it is your wish, we are hoping to plan your child's future together.

OUR PLAYFUL LOVING AND FUNNY DOG LONDON

OUR STORY

We met 10 years ago through a mutual friend, and got engaged on the London Eye in England, where Ammar grew up. We were married surrounded by our family and friends from all over the world, literally! We love to spend time with family and friends, traveling, experiencing different places, foods, and cultures - all things we hope to share with a child!

Our hearts are so ready and open to love a child! We have always had a picture of how we wanted our family to look and adoption has always been a part of that vision. After struggling with infertility, this was a beautiful next step for us! We are thankful and grateful for this opportunity!
