

Excited to adopt again!

Curt and Sharla

Hello!

Thank you for allowing us to share a glimpse of our lives with you and the love we have to offer.

Your circumstance likely seems overwhelming, and we wish you wisdom and strength as you weigh your options. We are happy to discuss an adoption plan that provides you comfort and peace of mind.

We admire you and thank you for considering adoption.

Our Family

We grew up two blocks from each other and became best friends in High School; reconnecting after college we have been happily married for several years. After struggling with infertility, we were overjoyed to adopt our daughter, Ava! We cherish and respect Ava's birth mother for her love, selflessness, and courage and are forever grateful to her. We love being parents and are thrilled to embrace the gift of adopting a second child!

Our Lifestyle

Our neighborhood in suburban Minneapolis is ideal with its walking trails, playgrounds, ponds, open park-like yards, and lots of kids! Kids are always outside riding bikes, playing basketball, cross-country skiing, ice skating and sledding. We treasure time with our extended family that live out of state and see them as often as we can. We also enjoy getting away from our home in the city and spending time at our family farm. Our favorite activities are traveling, boating on Lake Minnetonka, Friday night movies, campfires (with s'mores!), and checking out regional events.

Our Promise

- ♥ To provide unconditional love and support
- ♥ To raise them in a Christian home
- ♥ To laugh often & cherish the gift of life
- ♥ To hug through the tears

And we promise to assure them that their birthmother loves them deeply and made a difficult, selfless, and courageous decision!

Thank you for taking the time to learn about our family & considering us as parents for your precious baby. We would love to hear from you! - Curt and Sharla
