

TYLER + ANDREA

Hello!

We deeply admire the courage it takes for you to consider adoption for your child. We are open to exploring an adoption plan that you are comfortable with and want to support you every step of the way!

We are unable to have biological children and are hopeful and excited for the opportunity to grow our family through adoption!

Our marriage, careers, and local support network of family and friends is strong and stable. We are confident we have built an environment where children can thrive.

Our Story

We grew up in the same Minneapolis suburb and have been best friends since 9th grade. It wasn't until we moved four hours apart to start college that we realized we should date. It's true - distance does make the heart grow fonder! ♥

Over the next four years of our long-distance relationship, we built a strong foundation of communication and trust. After graduating engineering school, Tyler moved to South Dakota to live and work near Andrea while she completed her Doctorate in Pharmacy.

In 2018, we married and moved back to the Twin Cities suburbs to plant roots in our forever home! Our parents and all four of our siblings live nearby. We spend time together often!

Meet Sasha!

I am a **kid-friendly** mini-bernedoodle who joined the family as a puppy in 2023.

Humans say I am **cuddly**, sassy, and "talkative." I love to kick pillows off the couch and cover the family room with shoes!

State Fair Sweet Corn: Tyler's Favorite

Tyler's About Me

I am **caring**, accepting, creative, and a bit sarcastic! Working as a chemical **engineer**, I design and build industrial facilities. During the winters, I love to **snowboard**, and in the summers, I love to **rock climb**. I am also a huge nerd with a love for **anime**, movies, and video games.

I am so excited to be an involved **dad** who helps with homework and cheers the loudest from the stands or audience. I promise to **nurture** and help a child **grow** into their most **authentic** and best self!

Andrea's About Me

I am **passionate**, empathetic, and organized. I work as a **pharmacist** at a local hospital that serves veterans. Traveling, hiking, and **cooking** with Tyler brings me joy! **Connecting** with others and helping people feel supported and valued energizes me.

As a mom, I promise to **love unconditionally** and always be present! I can't wait to make up **silly songs** that narrate our day and **teach** the importance of treating others with kindness.

Thank you for reading our letter! We love the life we have built together and dream of sharing it with a child.

We are excited to connect with you,

Andrea and Tyler
