

Paula & Zafer

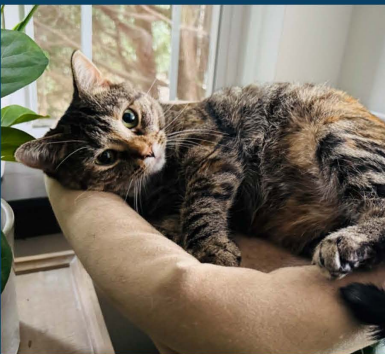

Hello!

Thank you for
considering us!

We Are Thinking of You...

Our hearts go out to you during this challenging time. We understand this is a difficult decision and hope you find peace knowing your journey will help us grow the family we dream about but cannot build in the traditional way. We are open to creating an adoption plan that works for all of us and hope this letter gives you a glimpse into our lives and the love, laughter, and support we can offer to a child.

Marshall & Lily

Our rescue cats, Marshall and Lily, the friendliest, most gentle cats we've ever met - they love everyone and everyone loves them!

A Little About Us

We live an hour and half from Minneapolis. We're close to parks, nature trails, and shops. We cherish our time together—whether it's talking about our day, cooking a meal together, sharing a laugh, or dreaming about adventures. We love traveling - having visited a combined 40+ states and 10+ countries. With relatives in Spain and Turkey, we are excited to plan fun family visits!

Our Lives

DINNER TIME

We love cooking dinner together, Zafer usually as the sous chef. The meal is always gluten-free and often Asian inspired. There's a good chance a mini dance party will break out in the kitchen to 'Mi Gente' as we chop veggies!

WEEKENDS

We like going on outdoor adventures, trying new restaurants, and catching up with friends. We've also started going to Karaoke once a month—still searching for our go-to song!

EVENING ACTIVITIES

We enjoy winding down with a friendly board game - usually Sequence (Zafer's go-to, even though Paula always wins!). In the summer, we take walks on the nature trail by our house and spend time on the deck. Winter, we switch things up—Paula takes dance lessons, while Zafer plays basketball.

We also unwind by watching TV and reading historical fiction. No day is complete without playtime and snuggles with our cats.

About Zafer

Zafer is caring, patient, & empathetic, both in his work as a neurologist and with his loved ones. He's always ready to support friends and family.

Zafer loves learning and speaks four languages, including Spanish. He also enjoys listening to podcasts.

A helpful partner, he is always ready to pitch in and make the home a comfortable, welcoming place. Zafer looks forward to bringing his passion for learning and his supportive nature to being a dad!

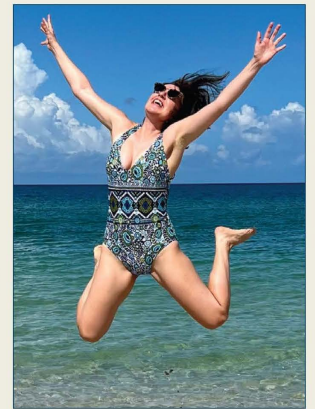

About Paula

Paula is warm, nurturing, and curious. She works as an Engineering Manager in the medical device industry and enjoys learning about new technology.

A blend of fun and reliability—she's the first on the dance floor and has the most efficient route through the grocery store. She loves experimenting with new recipes, and luckily for Zafer, she's also an amazing cook!

Paula can't wait to bring her sense of adventure, affection, and creativity into becoming a mom!

Thank You

Thank you again for considering us. We are excited about becoming parents by adoption and ready to offer your child a home full of love, laughter, and adventure. If you'd like to learn more about us, we'd love to connect and hope to hear from you soon!

We wish you peace and clarity during this journey.
