

Thank you for considering us!

We've been looking forward to growing our family by adoption. This road must be filled with tough decisions, and we respect your courage and strength. We are open to your adoption plan and happy to consider a continued connection.

Tatjana & Nicole

Our Story

We met while living in Germany in 2015, got married in 2019, and in 2020, we moved back to the United States. We chose a suburb of Minneapolis to be close to nature and live in a house together with our two cats, Binx and Maze.

We love to travel on family vacations. We visit friends or meet at a park and spend the weekend hiking, playing games, and grilling.

Our professions allow us to work from home most days. At lunch, we go for walks and can't wait to push a stroller!

We love to try new things! A few of our recent adventures include:

- Making candles
- Fermenting our own hot sauce
- Growing bonsai trees

A typical weekend with us:

- Going for a hike or bike ride
- Shopping at the farmers market
- Watching a movie, especially on a rainy or snowy day
- Trying out a new recipe

Binx and Maze snuggling together

We are thrilled to be parents! We will offer our child:

- Laughs, tickles, fun accents, and goofy dances
- Encouragement and support to learn new things
- Be their biggest fans/coaches in sports, singing, band, or any other interest

We'd love to chat with you!
