

Tanner AND Bridget

Hello!

Thank you for taking time to read our letter!

We can't imagine what a difficult decision this must be for you, but please know we admire your courage and strength. **We hope to invite you into our lives and are happy to consider an open adoption plan if you wish.** Having been diagnosed with infertility, we are thrilled to grow our family through adoption!

About Us

We met in college, are now married, and have been together for a total of eight years. We live in rural Southern Minnesota on acreage with a turn-of-the-century farmhouse. Tanner's parents and siblings live within 7 miles of us, including our niece and nephew just down the road! Bridget's family lives in another state, but we make time to see them often.

Our home life can best be described as a calm and comfortable space

where we enjoy spending time together and with family who are so excited to welcome a new family member.
