

Hi, We're Mel & Nate

A Note From Us:

We can only imagine how difficult this decision is, but know that getting to be parents would be the greatest gift. Being unable to start a family on our own, we are so grateful for the opportunity adoption provides.

About Us

About Mel

- Loves **being a role model to and supporting** her sister, younger cousins, niece, and bestie's kids; **watching them grow up** has made her want to be a mom!
- Grew up with the **best of both worlds**, living in the cities & going to a small town on weekends.
- Was **raised by a village**; parents, grandparents, aunts and uncles.
- **Passionate about fishing**, her father was a walleye pro who took her fishing all of the time.
- Earned a **college degree** and works as a **financial professional**.
- All of this has made her a, **loving, strong, intelligent, capable person**. She believes that we must **help and stand up for others – fight for what is right – and never forget our self-worth**.

We met in 2015 and instantly clicked! Since then, we've shared so much together: got married, remodeled a townhouse, bought our home in Eden Prairie, purchased a permanent camper, and each experienced the loss of a parent.

We have proven that together, we can handle anything.

About Nate

- **Grew up hunting & fishing** with his dad, grandpa, uncles, and cousins.
- Raised with a **strong moral compass**, has a **big heart, funny, loving, caring**, and would do anything for loved ones.
- Loves teaching his niece and our friend's kids about fishing, tubing, making camp fires, and swimming.
- Earned a **bachelors degree in engineering** and works as a **manufacturing engineer**.
- He is a **patient, cool, collected, calm** individual, who believes we just do the best we can every day and try to remember what really matters: **family, love, respect, and kindness**.

Our Story
