

SARAH & DANIEL

HELLO!

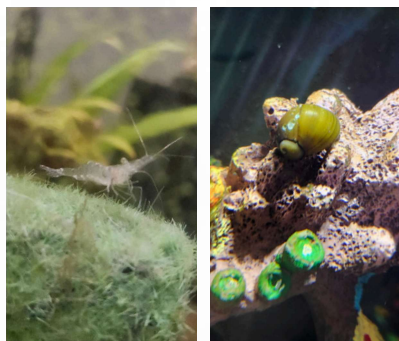

Thank you so much for taking the time to view our letter. We want to express our deepest appreciation for you and the strength, love, and thoughtfulness behind the decision you are making.

We are looking to adopt due to being diagnosed with infertility. We are happy to consider an open adoption plan if you would like to consider that.

ABOUT US

We met online in 2017 and have been married for over four years. We make our home in the Northern Twin Cities. We live in a neighborhood with large yards and have many parks within walking and biking distance, including some great county parks!

Together we enjoy traveling near and far, including: road trips, State/National Parks, and cruises, riding on our Italian scooters and our electric bicycles, watching movies, playing video and board games, and attending concerts, festivals and fairs. We value honesty, respect, trust, and love.

OUR PETS

We have multiple aquatic pets, with a few aquariums including fish, shrimp and snails

ABOUT SARAH

Sarah grew up in the Twin Cities with her parents and younger sister. She attended the U of MN (Go Gophers!) and received a degree in Family Social Science and History. She works for the state of MN as an analyst and has a job that offers a lot of flexibility.

She is funny, creative, has a big heart and is sarcastic. She likes to cook and try new foods, collecting Uranium glass, and looks forward to the MN State Fair every year!

ABOUT DAN

Dan grew up in west-central Minnesota in a blended family and has two half-sisters. He received a degree in Computer Science. He has worked as an electrical engineer for over 20 years for a small business in Minneapolis.

He is a big techy, great at problem solving, and very caring. He enjoys tinkering and repairing automotive things, electronics, learning about technological history, and collecting retro video games.
