Why Adoption?

Leah has dreamed of adoption for as long as she can remember. After concerns during Leah's pregnancy, we are no longer able to have biological children. Now, we are incredibly excited and grateful for the opportunity to grow our family through adoption.

About Us

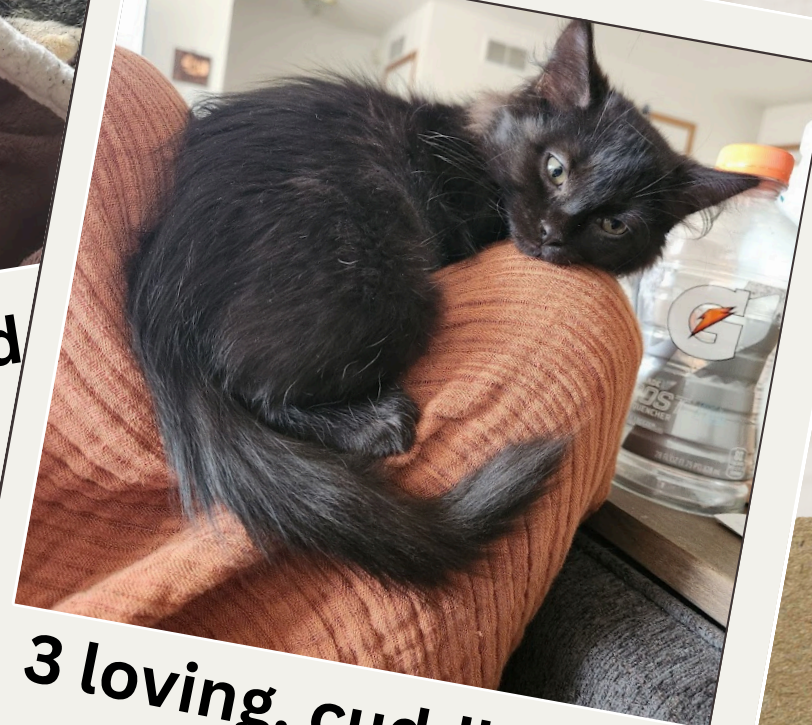

We love spending time as a family traveling (both across the U.S. and internationally), hiking, and exploring new places. One of our shared goals is to visit every state and every National Park.

We've settled into a cozy fixer-upper in a small town just outside of Mankato. We enjoy family walks, community events, time with friends and family, and simply appreciating all that our town has to offer.

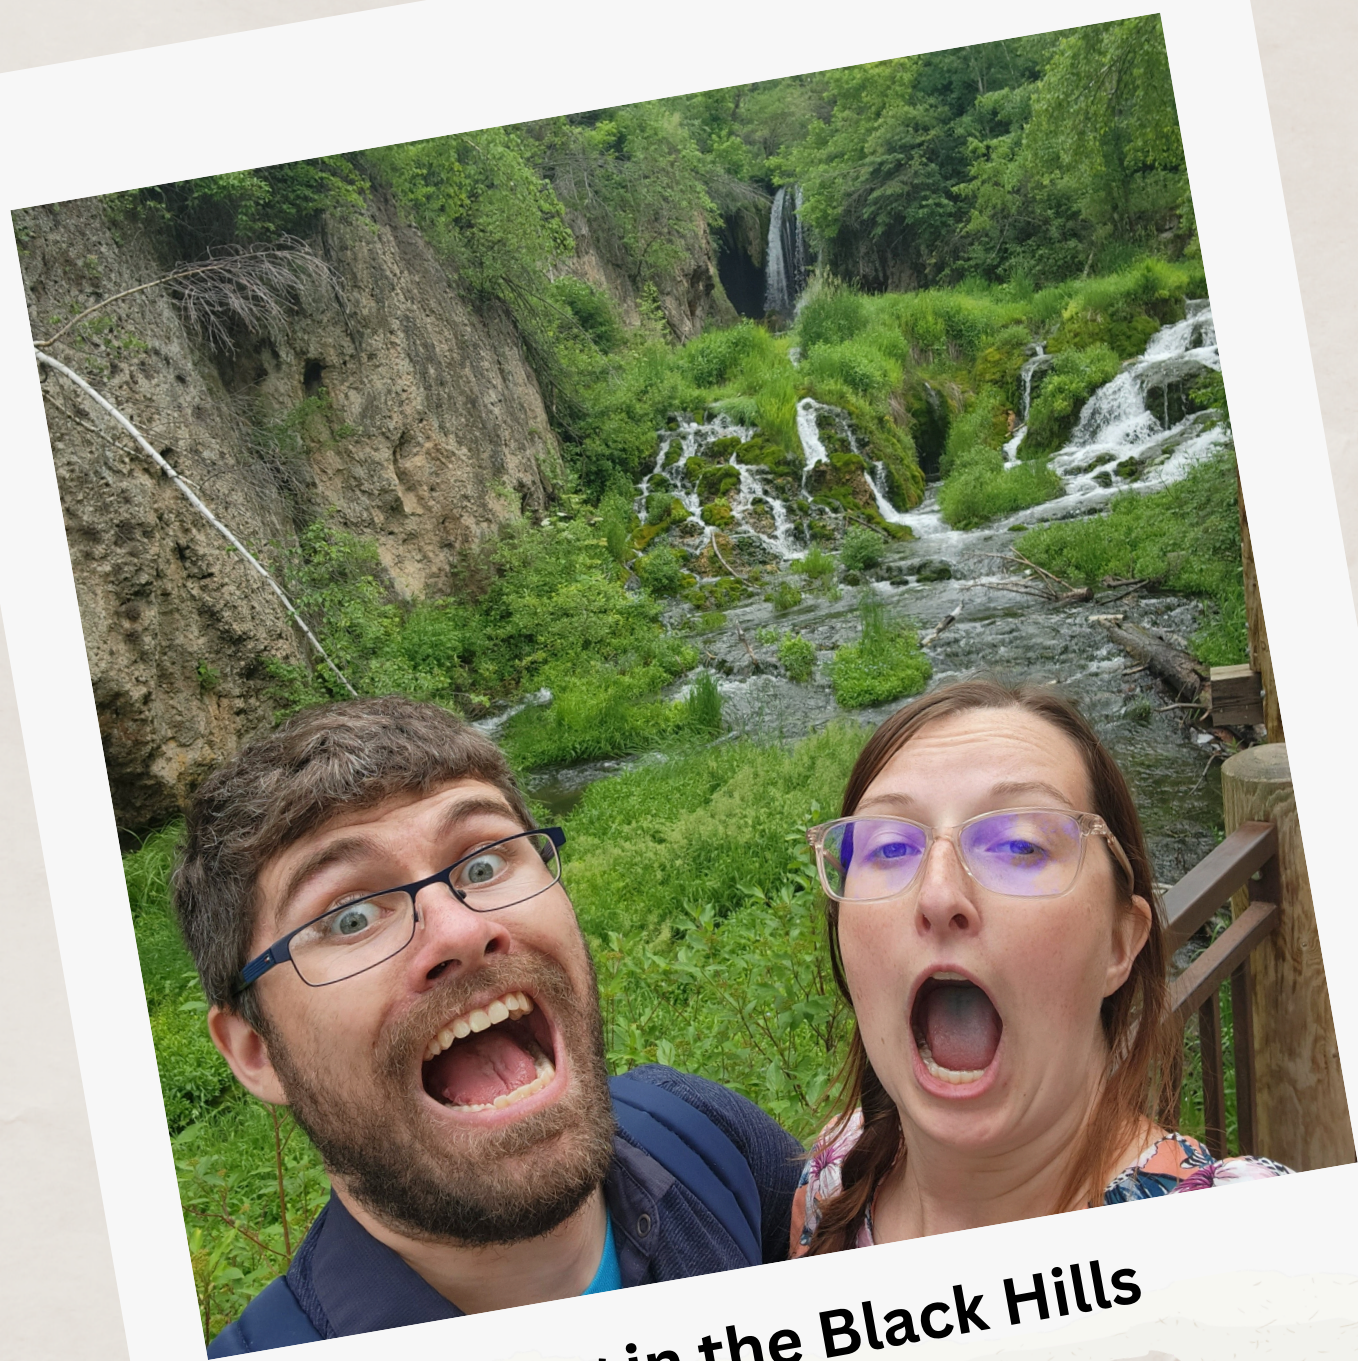

Leah enjoys taking on home improvement projects—from installing floors and cabinets to building shelving and adding character to each room—while Jamie prefers working on outdoor projects.
